

**GENEVA TOWNSHIP  
STREET LIGHT POLICY**

October 14, 1997

To promote the health, safety and welfare of the residents of Geneva Township, the Geneva Township Board establishes this Street Light Policy.

**PURPOSE:**

It has been determined that it is appropriate for the promotion of the health, safety and welfare of citizens and residents of certain areas of the township to provide for the effectuation and maintaining of street lighting improvements with those areas of the township, either at Township expense or by Special Assessment.

**CONSIDERATIONS:**

The township board shall evaluate all requests for street lighting on main thoroughfares. Installation will be based on health, safety and welfare of residents exiting and entering intersections of main thoroughfares. Cost of street lighting on main thoroughfares may be defrayed by Special Assessment, by Township General Funds, or by a combination of sources, depending upon the specific circumstances of each situation.

Street lighting within subdivisions and in areas that do not include main thoroughfares (such as apartment complexes, condominiums, subdivisions, mobile home parks, and developments where street lighting is requested along private street, roads or drives) will be considered if petitions for Special Assessment are submitted in accordance with Public Act 188 of 1954, as amended, MCLA 41.721, et seq.

**ADOPTION:**

The Geneva Township Board establishes and adopts this Policy this 14th day of October, 1997.
